

International Conference on Computers & Industrial Engineering CIE45

Call for papers -- Special Session on: Computers & Industrial Engineering in fashion industry for CIE45 October 28-30, 2015 - Metz, France

Session chair

Dr. Sébastien Thomassey, ENSAIT-GEMTEX, France

Session description

The specificities of the textile/apparel industry and more especially the fashion industry, require the development of advanced industrial engineering systems from the design to the distribution of the finished goods. Indeed, the high variety of products and processes, long and fluctuating production and supply lead times, consumer requirements in terms of quality and style,... make the material and information flows very complex. The aim of this special session is to present the last enhancements in industrial engineering for fashion industry. Theoretical and practical works in this field can both be submitted. Topics of interest include, but there are not limited to, the following:

Topics

- ▶ Fashion supply chain management & logistics
- ▶ Production systems for fashion industry
- ▶ Intelligent sizing system
- ▶ Big data for fashion forecasting
- ▶ Expert systems for garment design
- ▶ All other topics related to the conference (see scopes and topics) implemented in the fashion industry.

Submission

Please submit your full paper on the EasyChair website:

<https://easychair.org/conferences/?conf=cie45>

May 31, 2015: deadline for paper submission

June 21, 2015: notification of acceptance/reject

July 15, 2015: deadline for final paper

August 16, 2015: deadline for registration.

Practical information

All papers must be written in English and should describe original work. The length of the paper is limited to a maximum of 8 pages (in the standard CIE conference format). For up-to-date information and paper submission, please visit the conference submission page:

<https://easychair.org/conferences/?conf=cie45>

The proceedings of CIE 45 will be published on the web page of the conference and that of Computers & Industrial Engineering. They carry the identifier ISSN of 2164-8670 for the CD-ROM version and 2164-8689 for the Online version. A special issue of the international journal "COMPUTERS & INDUSTRIAL ENGINEERING" will be dedicated to the best papers presented at the conference after rigorous reviews.

For any practical issue please write to: cie45@easychair.org
